

IMPORTANT RULES ABOUT DIAPERING

- ✓ Use the area only for diapering.
- ✓ Set up the diapering area as far as possible from any food handling area.
- ✓ Provide running water so hands can be washed immediately after a diaper is changed.
- ✓ Construct a diapering surface which is flat, safe and preferably at least three feet above the floor.
- ✓ Be sure the surface is clean, waterproof and free of cracks and crevices. Cover with a disposable cover.
- ✓ Keep all creams, lotions and cleaning items out of reach of children.
- ✓ Use a guardrail or recessed area as an extra safety measure.

NEVER LEAVE THE CHILD, EVEN FOR A SECOND.
