CALIFORNIA CHILDCARE HEALTH PROGRAM

The mission of the California Childcare Health Program is to improve the quality of child care by initiating and strengthening linkages between the health, safety and child care communities and the families they serve. CCHP is a community-based program of the University of California, San Francisco School of Nursing, Department of Family Health Care Nursing. cchp.ucsf.edu

CCHP's user-friendly educational resources are developed for child care providers, instructors, Child Care Health Consultants, Child Care Health Advocates and the families they serve.

Promoting Oral Health: A Curriculum for Health Professionals and Child Care Providers

This curriculum is for anyone working in the field of early care and education with an interest in promoting oral health and protecting Early Childhood Caries. \$15; Available in English or Spanish

Curriculum for Child Care Health Advocates — Spanish

This curriculum is designed to train early care and education professionals to become Child Care Health Advocates. \$40 Available in Spanish

Integrated Pest Management: A Toolkit for Early Care and Education Programs

The toolkit helps early care and education providers learn alternative methods to keep pests out of child care environments and reduce pesticide exposure for children and staff. \$25; Available in English or Spanish

Health and Safety in the Child Care Setting

Prevention of Infectious Disease and Injuries, Student Edition CD

This CD is a special student edition consisting of selected handouts from *Health and Safety in the Child Care Setting – Prevention of Infectious Disease and Prevention of Injuries*. The two part curriculum provides information and guidance on how to control communicable and infectious disease in the child care setting, as well as the prevention of injuries. It covers the content of the Emergency Medical Services Authority (EMSA) 7-hour Child Care Preventive Health and Safety Training. \$10; Available in English
